

TECHNICAL DATA SHEET

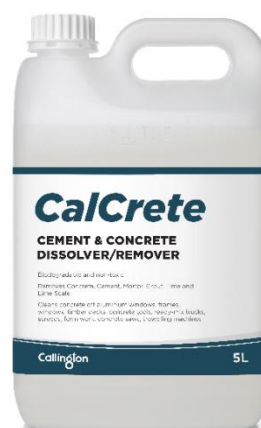

CalCrete

Code 5173

An organic acid alternative cement and concrete remover

DESCRIPTION

CalCrete is a biodegradable, low-toxic cleaning liquid designed to dissolve and remove dry, hardened cement, mud, concrete, water deposits, and limescale build-up. It quickly breaks down cement into a paste, penetrates deeply into concrete residues, and reacts with particles from within. CalCrete is safe for use on windows, cleaning aluminum frames, timber decks, steel fence panelling, concrete hand tools, formwork, screeds, and trowelling machines.

FEATURES & BENEFITS

- CalCrete is fast acting, quickly softening and dissolving cement, concrete, grout, and limescale.
- Contains naturally occurring actives in place of harsh acids commonly found in similar products.
- Biodegradable and low-toxic, does not contain sulfuric acid, muriatic acid, hydrochloric acid, or phosphoric acid.
- Low corrosivity makes it safe to use on various surfaces.
- Low odour and non-fuming making it more comfortable to use.

APPLICATION

Do not wet the surface before applying CalCrete. Test the product on a non-critical area before using it.

Spray or brush the area with CalCrete until it is completely wet. The surface will turn white on contact. Allow CalCrete to soak for at least 10-15 minutes. For stubborn or long-term build-up, re-apply to the same area and keep the surface wet.

After sufficient dwell time the targeted materials will start to soften. Rinse with cold water to remove the residue. Pressure cleaning (1,000-3,000 psi) equipment and parts will remove residual concrete in tough and hard to access areas.

TECHNICAL DATA SHEET

PHYSICAL PROPERTIES

Density: 1.08 +/- 0.02
Appearance: clear to pale yellow colour liquid
pH: 1.0-2.0

ORDERING INFORMATION

Product Code	Packaging
5173/28	750 ml
5173/42	5 litres
5173/51	20 litres
5173/64	200 litres

STORAGE

Store CalCrete in a cool, dry place, away from direct sunlight and extreme temperatures. Keep the container closed when not in use.

WARNING

Harmful if swallowed. Causes severe skin burns and eye damage. Do not breathe mist/vapours/spray. Wash all exposed external body areas thoroughly after handling. Wear protective gloves, protective clothing, eye protection and face protection. Do not eat, drink or smoke when using this product.

For further information, please refer to the product label or contact the manufacturer.
