Ki-Kleen

MULTI-PURPOSE HIGH-PERFORMANCE CONCENTRATE CLEANER

DESCRIPTION

Ki-Kleen high-performance cleaner is a multipurpose, aircraft-approved surface cleaner. After diluting, it is a convenient spray and wipe product that can be used on food contact surfaces without rinsing. Ki-Kleen can be used on polypropylene, polyethylene, vinyl, plastic, aluminium, stainless steel, glass, Lexan, carpets and synthetic fabrics.

FEATURES & BENEFITS

- Concentrated formula which can be diluted with water
- Non-toxic biodegradable formulation, safe for all cleaning and cabin crew
- Suitable for use in food preparation areas
- Complies with AMS1550B and Boeing D6-7127 standards

DIRECTIONS FOR USE

Ki-Kleen is to be diluted with water depending on the amount of grime needed to be removed.

RECOMMENDED DILUTIONS

| Application | Ratio | Remarks |
|-------------------------------|-------|-------------------|
| General Hard Surface Cleaning | 1:40 | Dilute with water |
| Heavy Duty Cleaning | 1:15 | Dilute with water |

Spray directly onto surface and wipe clean with a dry, lint-free cloth. For stubborn soiling, leave on for 1 minute and wipe with a dry or wet cloth. Multiple applications are recommended combined with firm rubbing action if necessary. For porous surfaces (PVC in kitchens), remove dirt with a soft brush. Rinse if surfaces are in direct contact with food. Avoid saturating the surface and ensure all residue is wiped clean.

Carpet & Glass Cleaning: Ki-Kleen can be used for carpet and glass cleaning at a dilution of 1:30 with water, if required. It is suggested however, to use dedicated products such as Aero Carpet Cleaner and Aero Glass Cleaner for optimal performance in these areas.

ORDERING INFORMATION

| Code | Product Size | Units/Carton |
|---------|---------------|--------------|
| 9151/42 | Ki-Kleen 5L | 4 x 5L |
| 9151/51 | Ki-Kleen 20L | Each |
| 9151/64 | Ki-Kleen 200L | Each |
