

TECHNICAL DATA SHEET

ROX[®] 220 AG

Code 8770*Diesel Decarb Tank Fluid*

Diesel fuel injector cleaner and de-carboniser for addition to the diesel tank

DESCRIPTION

As engine deposits accumulate over time and mileage, vehicle performance deteriorates. Callington's ROX[®] 220 AG is a highly concentrated diesel fuel additive designed to clean injectors and to remove stubborn carbon deposits from engine surfaces, restoring the power, performance and fuel efficiency of the vehicle. It is suited to both normal and common rail diesel motors. ROX[®] 220 AG is added directly to the fuel tank of the vehicle - the cleaning process occurs during normal operation of the engine.

When used as directed, this product will not cause damage to the vehicle.

DIRECTIONS FOR USE

Add 250 ml of the ROX[®] 220 AG to a full tank of diesel fuel. Operate the diesel engine as usual - during the normal operation of the diesel engine, carbon deposits are removed and injectors are cleaned.

CHARACTERISTICS

Appearance : Clear yellow liquid
Density : 0.84 g/ml

HEALTH & SAFETY

ROX[®] 220 AG is highly flammable – do not use near heat, fire or flame. Use only in well ventilated areas. Avoid contact with the skin and eyes. Wear eye protection and protective gloves when using. Avoid breathing vapours or mists.

For further guidance on Product Health and Safety refer to the appropriate Material Safety Data sheet.

PACKAGING & AVAILABILITY

Available in 250 ml and 20 litre bottles.

WARRANTY – All statements, information and data presented herein are believed to be accurate and reliable but are not to be taken as a guarantee, expressed or implied, for which seller assumes legal responsibility and they are offered solely for your consideration, investigation and verification. Statements or suggestions concerning possible use of this product are made without representation or warranty that any such use is free of patent infringement and are not recommendations to infringe on any patent.
